* As it frequently occurs that the ships for Great Britain do not leave Port Adelaide until the commencement of the year succeeding that, with the produce of which they are loaded, a Return like the present (to the 31st December in each year), in which the value of the produce of one season is blended in uncertain proportions with that of another, is of little use for the purpose of contrasting the value of the produce of successive years. The Return on the next page, however, being made up to the 5th of April in each year, will more accurately show the progressive increase in the quality and value of all the articles of Colonial Exports.
